

Cordless LED Safety Cap Lamp

GDL2500C Li-ion Battery

1. Characters:

- 1) High power LED light source, extra-long lifetime (50000 hours)
- 2) Li-ion battery, compact and lightweight, free of maintenance
- 3) Intelligent charging protection: anti-overcharging, current control, short circuit protection and anti-overheating
- 4) Water proof, current shockproof, moisture proof and impact proof

2: Specifications:

Item		Specifications
Model No		GDL2500C
Rated capacity		3.8Ah Li-ion battery
Rated voltage		3.7 V
Continuous discharging time		13 h
Main LED	Power	CREE 1 W
	Rated current	230mA
	Lighting begins	6500 lux
	LED lifetime	>50000h
Lifespan of the battery (recharges)		>800 times
Class of waterproof		IP67
Net Weight		158 g

3: Instruction manual/user manual:

- 1) When you use the lamps for the first time, please use our special charger or the corresponding charging station to charge the lamps. When the lamps are charging, the indicator on the lamp switch lights up red. When the indicator on the lamp switch is green, it means that charging is complete.
- 2) When you press the button for the first time, the main light and the additional lights light up. When you press it a second time, the lamp switches to emergency light/energy-saving mode. When pressed again, the lamp is off.

4: Warnings

- 1) Repairs are only allowed to be carried out by trained maintenance personnel.
- 2) the lamp must not be charged or opened in explosive atmospheres.
- 3) it is strictly forbidden to disassemble or heat the battery.
- 4) Clean the lamp with a soft brush or cloth.
- 5) Used or defective batteries must be disposed of properly.
